

Cash management service

BENEFITS FOR

Local authorities

A savings product that stays ahead of the market.

We can work with local authorities to improve cash returns, reduce risk, and save time. With multiple responsibilities, these clients need an efficient and transparent cash management solution that avoids them having to monitor the market and constantly open and close different savings products. We provide a solution that achieves all these objectives and is unaffected by MiFID II.

You will benefit from:

Complete transparency. Our online platform provides instant access to current and historical information.

Peace of mind. Safe in the knowledge that your cash is taken care of.

Secure cash movement. From UK-based to offshore banks, offering a wide range of products with competitive interest rates.

No disruptions. Or requirement to move your current banking relationship.

Regular rate review. Across the entire market, ensuring you always have the best interest rates available.

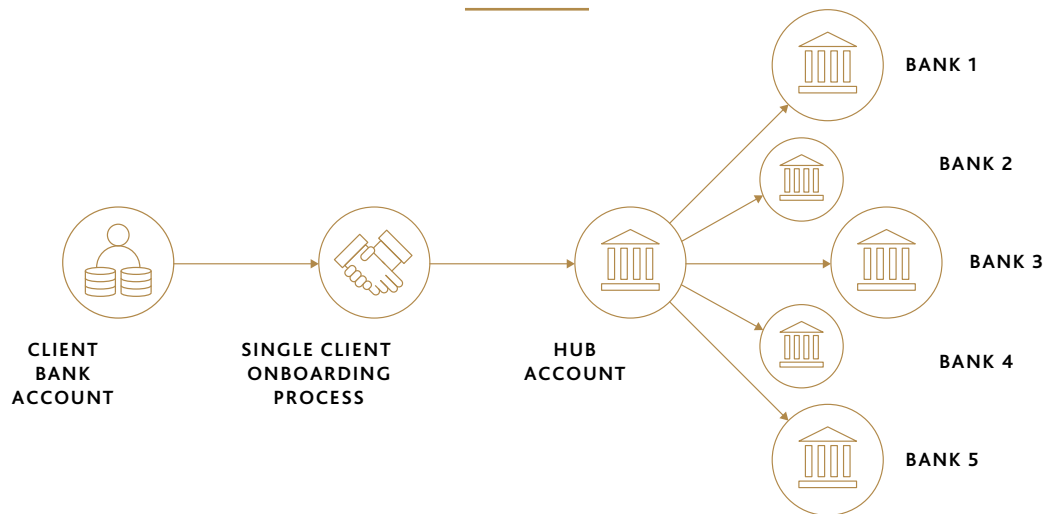

Variety of term options. Keeping funds as liquid as you need them to be.

How it works

1

Step one: Apply for account

We open your Hub Account with Barclays.

2

Step two: Transfer deposit

You transfer your cash deposit into your Hub Account.

3

Step three: Place deposit with banks

We transfer your initial allocations to your chosen accounts.

About Insignis

Established in 2015, Insignis offers a wealth of financial and technological experience. Its independence allows the company to offer a holistic service that focuses on achieving better interest rates for you, while bespoke technology ensures that saving money is easy.

With offices in Cambridge and London, Insignis focuses on ensuring that all its clients receive an impeccable service – it's at the heart of what the team does. To ensure a first-class service, the Insignis Client Services Team is just a phone call away ready to assist you.

For more information, visit williamhighbourne.com/cash or call us on +44 (0) 1395 207350.

SECURITY

All client data is encrypted at all times. All payments pass through a two-tier approval process to ensure that no one individual can authorise a payment. Your savings will only ever be sent back to your designated account, selected by you when you set up the service. Your Insignis Client Services Team will require a separate verification process before they are able to release funds.
