

Cash management service

BENEFITS FOR

Companies

A savings product that remains ahead of the market.

Cash is an important business asset, vital for liquidity and for meeting future liability. However, managing cash deposits and reviewing bank interest rates to keep cash consistently working hard can prove a time-consuming and difficult process.

Our award-winning platform offers a single sign-up service that provides you with access to up to 29 banks and building societies offering exclusive, market-leading savings rates. This arrangement will spread your FSCS or equivalent protection for eligible funds. We also manage any complex administration on your behalf, providing you with a smooth, trouble-free service.

You will benefit from:

Best interest rates. For your cash, according to your term requirements.

Regular rate review. Across the entire market, ensuring you always have the best interest rates available.

Secure cash movement. Within the banking systems, and you remain the beneficial owner.

Peace of mind. And more time, safe in the knowledge that your cash is taken care of.

No disruptions. Or requirement to move your current banking relationship.

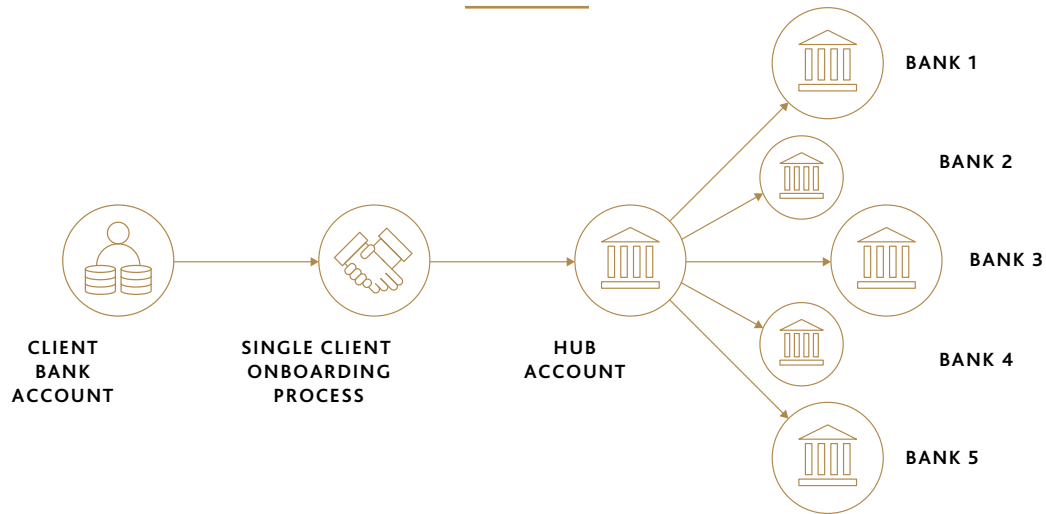

Variety of term options. Keeping funds as liquid as you need them to be.

SECURITY

All client data is encrypted at all times. All payments pass through a two-tier approval process to ensure that no one individual can authorise a payment. Your savings will only ever be sent back to your designated account, selected by you when you set up the service. Your Insignis Client Services Team will require a separate verification process before they are able to release funds.
