

Cash management service

BENEFITS FOR

Trusts / trustees

A savings account that keeps you top of the market.

We know that the obligations under the Trustees Act 2000 and the Code of Good Governance motivate trustees to earn the best possible interest for their beneficiaries, balanced with providing optimum security. Our service enables clients to apply these principles to the cash they manage and can be tailored to different cash management client requirements in a wide variety of legal situations.

You will benefit from:

Compliance. With trustee obligations and regulations, and the best rates available.

Secure cash movement. Within the banking systems, and you remain the beneficial owner.

24/7 access. To your accounts online through our secure banking portal.

Best interest rates. On a variety of terms, depending on your provider and liquidity preferences.

No disruptions. Leaving your current banking, current account or asset management relationships unaffected.

Peace of mind. Safe in the knowledge that your cash is taken care of.

SECURITY

All client data is encrypted at all times. All payments pass through a two-tier approval process to ensure that no one individual can authorise a payment. Your savings will only ever be sent back to your designated account, selected by you when you set up the service. Your Insignis Client Services Team will require a separate verification process before they are able to release funds.
